EXPERIENCE

WEB DEVELOPMENT IMMERSIVE STUDENT

General Assembly June 2017 – September 2017

Three-month, 500-hour full-time and full-stack web development program providing experience with the latest front- and back-end programming languages, tools, and methodologies

Worked on 4 projects including:

- Towers of Hanoi – a complex game built with JavaScript, HTML & CSS

- Parallex Store – an online Store built using Ruby on Rails for the front and back end.

- My recipe – an online service that allows users to get recipes that match the given ingredients. This was a group project built on AngularJS for the front end and rails for the back end. The purpose was to manipulate data using external API's as well as implementing CRUD functionality.

IPHONE TECHNICIAN
